

ANE Church Video Streaming Specialist

POSITION DESCRIPTION:

The Atlantic Northeast District of the Church of the Brethren seeks someone to serve as the **full-time salaried Church Video Streaming Specialist**, assisting congregations and church leaders with implementing online and hybrid church services. Primary responsibilities include helping local leaders evaluate strategies for streaming, suggesting specific hardware and configurations solutions, assisting with installations, configuring setups, training church members to use the equipment, being available for questions and requests, and coordinating volunteers to assist with all the above as able. Consideration must be given to any particular congregation's financial and volunteer resources, while standardizing equipment and implementations is preferable where possible. Secondary responsibilities include presenting monthly workshops on tech topics and best practices, assisting with streaming district events, responding to tech requests, and more.

These consultation and technical services are provided to all congregations in the district—large and small—along with limited availability for congregations and events outside of ANE, as the hope is that these services (and staffing) will expand to other districts and the denomination. As such, this position is breaking new ground, giving the opportunity and responsibility to help shape this ministry and how it is grown. This position lives out the Church of the Brethren's call for the church to be *innovative, adaptable, and fearless*.

QUALIFICATIONS:

The most successful candidate will possess most or all of the following:

- Experience with live video production and live streaming
- Knowledge of and familiarity with video, audio, and computer systems, especially streaming video methods, protocols, and best practices
- Experience with worship and various worship styles
- The ability to teach technology to non-techies (lay people)
- The ability to work independently
- Good communication skills, including the ability to listen
- Help desk tech support and troubleshooting skills
- The ability to envision, create, shape, and implement new programs and initiatives
- The ability to work with, encourage, and organize volunteers and other staff
- The ability to understand and embrace the unique dynamics and needs of worship while utilizing technology
- Familiarity with the Church of the Brethren

APPLY NOW:

To apply, please submit a résumé and a letter of interest—describing what attracts you to this position, your qualifications, and your salary requirements—to the Atlantic Northeast District at office@ane-cob.org. Applications will be received until the position is filled.
