# CFR Computer Donations

We gratefully accept many computer makes, models, sizes and types. Most of the time we are able to take older hardware and make it useful for our new neighbors. Our goal is to take donated time, donated computers, limited resources and provide a computer for a refugee family that will serve them well for 2 years. With this in mind, we are continuously evaluating the recommendations below to make sure they are both practical for those who give and useful for those who receive. If you have any questions, contact our donation guru: Stu.Metzler@gmail.com
